

xGateway-A110

Product Introduction:

The xGateway-A110 is a high-performance gateway product designed to scan nearby Bluetooth signals and transmit them to a server over the network. It offers multiple options for network connectivity, including Ethernet, LoRa, Wi-Fi, and 4G, allowing users to customize according to their specific requirements. It is suitable for both indoor and outdoor use. This gateway is ideal for scenarios that require fast integration of beacons, sensors, or tags with IoT cloud platforms.

Product Characteristic:

Basic	
Model No.	xGateway-A110
Color	Silver
Material	Aluminum
Net Weight	1000g

Power supply	DC 5V-12V, Battery
Supported Devices	iOS13+/Android6.0+(BLE 4.0 and above)
Installation Method	Screws
Product Size(D*W*H)	260*190*80mm
Technical Specifications	
BLE Protocol	BLE 5.0
RF range*	180m
Operating Temperature	-20℃ to +60℃
Transmission Mode	Wired Network:RJ45 Wireless Network:WiFi、4G、LoRa
Transmission Protocol	TCP/HTTP/MQTT/UDP
Functions	
APP Configuration	Support
Scanning,Connecting	Scanning(Default), Connecting (Customization)
Web Configuration	Customization
Firmware Upgrade	Support
Filtering	Support,filter by RSSI、 Broadcast name
Android&iOS APP	

*1. The lifespan of the device is dependent on specific usage conditions, parameter settings, and operating temperatures.
